Dear friends and colleagues,

It is our pleasure and honor to invite you to our next Thematic Conference 'Mental health and family medicine professionals working together.'

This Conference will build on the themes developed in Granada in June 2008 during the WPA Thematic Conference, organized in close collaboration with Wonca-Europe "Depression and relevant psychiatric conditions in Primary Care."

Mental health service users worldwide deserve the best possible management and interventions to achieve the best possible outcomes. This Second Thematic Conference will further strengthen the collaboration between primary and secondary care organizations working in the field of mental health for the benefit of those people affected by mental ill health, including their families and careers. The best possible outcomes can only be achieved thorough collaboration and working together.

This Second Thematic Conference provides an opportunity to share ideas through presenting original scientific research, participation in workshops, through short presentations, posters and Plenary Sessions delivered by a variety of international experts in the field of mental health, including the voice of service users.

Some of you may already have experienced the hospitality of Andalusia. This is an area that has a strong background in mental health developments, and the Andalusian Group of Research on Mental Health (GAISAM) was created in 1987. The MARISTAN Network to promote cooperation in the Mental Health field between Europe and Latin America was developed in 1997 and, in 2008, the group became part of CIBERSAM, a Spanish network of Biomedical Research Centres in Mental Health.

Granada has successfully hosted four previous international mental health conferences, and it gives us great pleasure to invite you to this WPA Wonca Thematic Conference which takes place in February 2012 in Granada, a city built under the shadow of the Alhambra, a magnificent legacy of the Arabic cultural heritage.

F. Torres-González,
President of the
National Organising
Committee

Gabriel Ivbijaro
President of the
Scientific Committee

WPA Thematic Conference : **Mental Health and Family Medicine Professionals, working together.**

Granada (Spain), 8-11th of February, 2012

WAYS OF PARTICIPATION

- Regular Symposia
- Workshops
- Satellite Symposia
- Posters
- Free Papers

See at the Web site (www.thematicconferencegranada2012.com) the information to be included in the proposal for symposia and workshop.

Submission of proposals and abstracts:

The proposals and abstracts will be submitted through the digital application available at the Conference Web site: www.thematicconferencegranada2012.com, following there the instructions given by the application.

Exceptionally, proposals and abstracts might be submitted by electronic mail, identifying carefully the mailbox of the proponent. The submission by this way should be addressed to: abstracts@thematicconferencegranada2012.com

ABSTRACTS Similar conditions are applied to the abstracts of presentations at a Symposium, to the abstracts of a Workshop or those for a Free paper or a Poster. They will not exceed the 250 words (see more details at the Web site).
